EMSTEQ SYSTEMS GOES TO SYDNEY...

It has been an exciting month of August for Emsteq Systems. Our team at Emsteq Systems travelled to Sydney in preparation for the Porsche Carrera Cup Australia.

We can finally reveal that the Emsteq brand name will be featured on each race car throughout the Porsche Carrera Cup. This event will be held between the 20th and the 23th of October on the Gold Coast, Australia. So make sure you head down to the Gold Coast to check it out and if you can't make the event, be sure to watch us on TV as the Emsteq brand zooms around the race track.

In addition to this, the big news continues! Emsteq Systems will be releasing its very own TV advertisement. So, be sure to tune into the Sky news channels and keep an eye out for us in the upcoming month of October.
